City of North Miami
Downtown Concept Plan

Volume 2
October 2014
City Officials

Philippe Bien-Aime, Acting Mayor
Scott Galvin, Council District - 1
Carol Keys, Esq., Council District - 2
Marie Erlande Steril, Council District - 4
Aleem A. Ghany, PE, City Manager
Regine Monestine, Esq., City Attorney
Michael A. Etienne, Esq., City Clerk

Project Management

Tanya Wilson-Sejour, A.I.C.P, Community Planning and Development Planning Manager

Downtown Action Plan Advisory Committee (DAPAC)

Lynda Westin, SF Regional Transit Authority (RTA)
Max Wolfe Sturman, Business Development Board
Barry Vogel, Johnson & Wales University
Stuart Grant, Florida International University
Mayor John Stembridge, Chamber of Commerce
Fred Stock, Downtown Property Owner
Jacques Despinosse, North Miami Resident
Suzanne Isa, Downtown Business Owner
Alexis Sanfield, Downtown Business Owner
Alexandra Barbot, Arts/Cultural Representative
Herbie Dorval, Commercial Real Estate Broker
Jason James, Architect/Engineer
Rabbi Jory Lang, Religious institution
Jeff Beal, Film Industry Representative
Clark Reynolds, Historian – business owner

Project Consultants

Alex A. David, AICP, The Corradino Group
Camilo Lopez, Urban Designer, The Corradino Group
Douglas Thompson, RLA, LEED AP, Landscape DE

1. Executive Summary
Executive Summary

The Illustrative Concept Plan for Key Elements of the Downtown focuses on generating ideas for strategic locations of redevelopment and civic improvement within the boundaries of the Downtown District (C-3), as recommended by the City’s Downtown Master Plan. This Section conceptualizes new land use patterns, public and private redevelopment opportunities, urban design elements, landscape/streetscape enhancements to guide public and private investment. Additionally, urban, landscape, and streetscape design concepts were identified. A variety of graphics including collage renderings, plan, aerial views, and street-level perspectives were prepared to depict concepts. The concept plans and graphics provide a visualization of the key elements and recommendations of the Master Plan and can serve as a guide for the long-term coordination of private and public investment. As the ultimate goal, the City envisions the downtown area to be a lively, safe and comfortable area for new and existing residents, businesses and visitors alike.

The project is part of a collaborative effort by City Officials, advisory committees, private developers, business owners, general public, and the consulting groups. The endeavor included the following parts:

Part 1. Illustrative Concept Plan For Key Civic Spaces

Part 2. Illustrative Concept Plan for Downtown Core Building Height and Massing

Initial work included an analysis of current building height and massing conditions. Several concept plans were developed showing options for increasing the height of buildings in the downtown core along NE 125th Street between NE 6th and NE 9th Avenues. Key urban design and architectural styles were illustrated. Options for greater building setbacks to accommodate wider sidewalks, outdoor dining areas, courtyards, potential parking areas and shade trees were proposed.

Part 3. Illustrative Concept Plan for Civic Center Complex

As part of this project, a conceptual plan for redevelopment of the Civic Center Complex was developed which included analysis of MOCA facilities, City Hall, the Police Department Building, municipal offices, open space, and parking. Additional facilities such as a Performing Arts Center, new park/open space, a historic museum, educational facilities, and added retail were also examined.

The City also developed an interactive website to inform the public of the process and its outcomes at:

3. Context
The City of North Miami Downtown District (C-3) has the potential characteristics of a dynamic urban environment due to its strategic location on the urban context. The Downtown District (Study Area) sits along one of the city’s major corridor of NE 125th Street, which links Interstate I-95 with Biscayne Boulevard, and then leads to the beaches of Bal Harbour and Surfside. The proximity to well-known educational institutions, such as, Florida International University Biscayne Bay Campus, Johnson & Wales University Baking and Pastry Culinary School and Barry University serves to promote youth density and diversity to the downtown community. The Oleta River State Park is another asset that plays a key role in the growth and development of the city, by promoting outdoor activities and tourism. In addition to the FEC Railway future station at the intersection of NE 125th ST that would promote an efficient transport system for visitors and residents. At the heart of the Downtown District the City Hall and Museum of Contemporary Art are located (MOCA). The MOCA and MOCA Plaza serves as an important economic, cultural, and social anchor for the downtown.

5. Key Civic Spaces
Using input from the General Public, Private Sector and City Staff, the Corradino Group and Landscape DE compiled key urban and development concepts into a single refined Concept Plan. Some important features of the plan are:

- The entire study area is designed to be lively, safe, and comfortable for residents, workers and visitors. The aim of the proposed Concept Plan enhances the relationship between the Downtown Area and Civic Spaces.

- The proposed restoration of the water fountain at NE 132nd Street and W Dixie Hwy, will bring awareness to the beautification efforts. The implementation of landscape design upgrades, will revive the triangular lot and it will mark a point of entrance to the Downtown Area. In addition, the incorporation of street furniture such as lighting and benches promotes the usage of the site for the community.

- A landmark feature [public art] in the Five Points Intersection of NE 6th Avenue - W Dixie Hwy and NE 125th Street, serves as a key element to the City's identity and sense of place. The proposed removal of portion of the hardscapes and replacing it with planting and a large specimen tree, will enhance the usage of the current bus stop. Providing comfort, security, and an identity as elements to reinforce the concept of connectivity within the study area.

- The proposed West Dixie Highway Green Trail beginning at NE 125th Street heading south will draw users to Griffing Park, and will connect the commercial (C-3) activity of NE 125th Street with an open/recreational place. The proposed alignment of shaded trees along a refurbished streetscape, will provide a comfortable pedestrian friendly corridor concept.

- The restoration of the Griffing Park, will support the Downtown Area with a nearby natural outdoor place. A proposed amphitheater will activate the community park. The programming of weekly and/or daily events can be arranged to promote dancing, acting, singing, and many more educational activities, especially for the youth.

- A retrofit to the MOCA Plaza, MOCA and City Hall will help to activate the space and reinforce the essence of this civic center. A proposed mixture of hardscape, landscape and building design, will promote this as a gathering place for many more public events. The implementation of pavement treatment, street furniture, lighting, city banners, shaded trees, plantings and public art will promote activity; and therefore, a healthier community. The proposed use of iconic architectural features serves as landmark elements that would enhance the community's pride.

- An open green space on the east side of the Civic Center would connect the main MOCA Plaza and will serve as an event space.

- The proposed streetscape revitalization and mixed-use parking garage on NE 8th Avenue - between NE 123rd Street and NE 125th Street, will serve as a Civic Corridor adjacent to the Civic Center. NE 8th Avenue will remain open through the area, but traffic will be calmed by the pavement treatment of the street, parallel parking, bike lanes, cafes, and identifiable crosswalks. During special events and potentially at other scheduled times, the 8th Avenue is closed for vehicular traffic.

- The MOCA Plaza and the proposed Civic Corridor are designed to accommodate more than 100 Farmers Market Stalls. NE 8th Avenue - between NE 123rd Street and NE 125th Street would be closed to through traffic on market days, using decorative stall designs, gateways, and public announcements.

- The proposed Green Trail on NE 8th Avenue - between NE 125th Street and NE 132th Street, will be developed as a pedestrian green corridor. The Avenue is envisioned as a pedestrian friendly corridor that would connect the commercial (C-3) zoning district and community facilities, with residential (R-2) zoning.

- As part of the development of the City's pride of unique characteristics, the proposed Downtown Gateways will serve as iconic elements. The gateways will be positioned at key locations. The threshold idea will enhance the residents and visitors experience, with a physical element that signifies the entry to a unique place; The Downtown of the City of North Miami!

Key Civic Spaces

[1] NE 132nd Street Fountain
Key Civic Spaces I NE 132nd Street Fountain I Description

The decades old fountain was reactivated and landscape improvements were made in the Spring of 2014 after the onset of the Concept Plan process. The area immediately adjacent to the fountain consists of multi-family residential to the east and south. The western side of West Dixie Highway is currently commercial.

The implementation of landscape design upgrades, will reactivate this triangular parcel and will mark a point of entrance to the Downtown area. In addition, the incorporation of street furniture such as lighting and benches promotes the usage of this pocket park for the community. Suggested Enhancements:

1. Create shaded seating with hardscape, shade trees and benches (three benches, one waste receptacle, 1800 square feet of decorative paving and approximately eleven shade trees to be located at the street fountain triangular site).
2. Install flowering plant material.
3. Add crosswalks with City-approved design scheme and install on-demand pedestrian signalization.

Figure 4. NE 132nd Street Fountain Location Map

Figure 5. NE 132nd Street Fountain Plan

Existing Plan

Proposed Plan
Figure 6. NE 132nd Street Fountain Section
Key Civic Spaces | NE 132nd Street Fountain | Street View

Figure 7. NE 132nd Street Fountain Street View
Key Civic Spaces

Key Civic Spaces | West Dixie Green Trail | Description

Prior to 2000, Dixie Highway was open to traffic and continuous through NE 125th Street. Due to safety concerns at that time, with northbound traffic movements to NE 125th Street, the Florida Department of Transportation closed the roadway to through traffic, creating a dead end just south of NE 125th Street. The impacts of this closure are still felt today by residents and business owners.

The proposed Dixie Greenway Trail beginning at NE 125th Street and West Dixie Highway will draw users to Griffing Park, and connect the commercial activity center along NE 125th Street to the Park. The proposed landscape and pedestrian amenity improvements will provide for a more comfortable experience in traversing this area. Suggested enhancements:

1. Create a linear pathway from 125th Street to Griffing Park (approximately 750 feet long by ten feet wide).
2. Add approximately 65 canopy trees and approximately 11,000 square feet of various groundcovers or flowers along path.
3. Add directional signs at northern and southern ends of Trail and at intersecting streets.
4. Add eight benches and four waste receptacles along path.
5. At the northern terminus at NE 125th Street add flowering and specimen trees, three to five understory trees, five sabal palms and understory plantings.
6. Install iconic sculpture or gateway feature at the entrance to the Greenway Trail at NE 125th Street.

Key Civic Spaces

[3] NE 8th Avenue PPP Mixed-Use Parking Garage

[7A] NE 8th Avenue Promenade
Key Civic Spaces | NE 8th Avenue PPP Mixed-Use Parking + Promenade | Description

NE 8th Avenue from NE 123rd Street north to NE 125th Street is envisioned to become a promenade/gathering space. Removable bollards at the intersections of the street would allow it to be closed temporarily to become a safe space for events. By combining administrative functions in a new facility, the western side of 8th Avenue could become a multipurpose green space. Suggested enhancements:

1. Create new crosswalks with City-approved design scheme the length of the Promenade.
2. Reconstruct sidewalks as necessary.
3. Reconstruct roadway and install decorative paving along NE 8th Avenue for the length of the Trail (approximately 20,000 square feet).
4. Demolish small City administrative structures to add green space to the western side of Promenade.
5. Install benches and waste receptacles.
6. Install distinctive lighting.
7. Install distinctive NoMi banners.
8. Install distinctive sculptures.
9. Install removable bollards at all intersections when Promenade is used for special events.
10. Add shade trees where needed for the length of the Promenade (approximately 20 trees).

CITY HALL PARKING GARAGE

The current City-owned surface parking lot on the west side of NE 8th Ave, north of NE 124th Street that accommodates approximately 200 vehicles, could be redeveloped as a several hundred space parking garage with ground floor retail fronting the NE 8th Avenue Promenade. This additional parking could be utilized as Parking for City administration during the day, for special events at other times and for shared with anticipated residential and retail developments in the immediate area. Funding could be accomplished through a Public Private Partnership. Suggested enhancements:

1. Redevelop the surface parking lot into a mixed-use retail and parking structure containing at least 400 parking spaces.

---

Today

Proposed
Key Civic Spaces

[4] NE 125th Street Liberty Gardens Park
Key Civic Spaces | NE 125th Street Liberty Gardens Park | Description

An outdoor Café is envisioned to be located in the area that serves as little more than a small passageway from NE 125th Street to a City-owned parking lot across an alleyway. It could be redesigned outdoor café space for a small to medium sized eatery opening on to the passageway from an adjacent building. Investment could come from both public and private sources. The City could make certain improvements to the passageway while a private entity would be responsible for any building renovations. By leasing a portion of the passageway area to the adjacent Café, the City would potentially generate revenue from the space.

Suggested Enhancements:
1. Plant approximately four trees with understory plantings.
2. Add paving material (approximately 1500 to 2000 square feet).
3. Add distinctive lighting (four to six tree up lights and three to four light poles).
4. Remove columns and archway.
5. Add two new entry signs.

Figure 16. NE 125th Street Liberty Gardens Park Location Map

Figure 17. NE 125th Street Liberty Gardens Park Street View

Today

Proposed
Key Civic Spaces

[5] Five Points Intersection
Key Civic Spaces I Five Points Intersection I Description

So named because three major roadways intersect at this location (NE 125th Street, West Dixie Highway and NE 6th Avenue) and when looking from above resembles “five points” touching. Currently, this very difficult intersection is hazardous to both pedestrians and persons travelling by vehicle. Pedestrian crossings are not well located and the triangular median area is not an adequate refuge.

A proposed landmark feature, such as an iconic art installation, in the triangle can serve as a key element of the City’s identity and its sense of place. Removing significant portions of the hardscape and replacing it with a large specimen tree and understory plantings will enhance the usage of the current bus stop providing comfort, security and an identity as elements to reinforce the concept of connectivity within the study area. Suggested enhancements:

1. Create new crosswalks with City-approved design scheme.
2. Create new, more direct crosswalks across NE 6th Avenue and NE 126st Street and install on-demand pedestrian signalization.
3. Decrease amount of hardscape while increasing landscape.
4. Add large specimen tree or three to four flowering trees.
5. Provide three benches and two waste receptacles.
6. Install iconic NoMi sculpture at southern tip of triangle.

Today

Proposed
Key Civic Spaces

Key Civic Spaces | Griffing Park Amphitheater | Description

This triangular passive park is a small oasis in the City’s central west area. It includes the Veteran’s Memorial Clock Tower and an artistic lighting installation in a large banyan tree entitled Electric Tree by the artist Mark Hand forth.

A proposed small amphitheater, holding just several hundred patrons, could be utilized for small events performances. Providing new uses and activities for the community park. The programming of events can be arranged to promote the artistic and cultural uniqueness of the City. Suggested enhancements:

1. Construct a 250-400 seat amphitheater and associated amenities.
Figure 23. Griffing Park Amphitheater Plan
Key Civic Spaces | Griffing Park Amphitheater | Section

Existing Plan

Proposed Plan

Figure 24. Griffing Park Amphitheater Section
Key Civic Spaces | Griffing Park Amphitheater | Street View

Figure 25. Griffing Park Amphitheater Street View
Key Civic Spaces

[7B] NE 8th Avenue Green Trail
Key Civic Spaces I NE 8th Avenue Green Trail I Description

NE 8th Avenue will connect the two largest civic complexes within the City. The southern terminus of the Trail would be at the MOCA/Civic Center (City Hall and Administrative) Complex. While the northern terminus would be at the Arts, Culture, Design District, North Miami Senior High School and the North Miami Public Library.

The redeveloped roadway segment would create a safe and attractive pedestrian and bike path between these two very important civic areas. Suggested enhancements:

1. Create new crosswalks with City-approved design scheme the length of the Trail.
2. Reconstruct sidewalks as necessary.
3. Reconstruct roadway and install decorative paving along NE 8th Avenue for the length of the Trail (approximately 175,000 square feet).
4. Install benches and waste receptacles.
5. Install distinctive lighting.
6. Install distinctive NoMi banners.
7. Add shade trees where needed for the length of the Trail (approximately 40 trees).

Key Civic Spaces | NE 8th Avenue Green Trail | Street View

Figure 30. NE 8th Avenue Green Trail Street View
Key Civic Spaces

[8] MOCA Plaza/Civic Center Complex
Key Civic Spaces | MOCA Plaza/Civic Center Complex | Description

North Miami’s City Hall, built in 1951, is currently one of the oldest structures in the City’s downtown. At the time of its construction, the City had a population of approximately 10,000 residents and the City Hall held a significantly smaller number of City staff. Also, far fewer municipal services were offered. After over 60 years the City has steadily grown to a population of close to 60,000 residents and has also increased its provision of civic services. Over 150 employees now occupy the current space which was designed for far fewer employees. A recent space analysis revealed that the building is over capacity. This is evidenced by the number of accessory buildings and trailers erected next to City Hall. The limited seating available at regular Council meetings, and long lines exiting the building for bus passes and passport applications.

As part of the Concept Plan process, a series of questions were asked of the public to determine preferred uses for the MOCA Plaza/Civic Center Complex. This Complex currently includes four surface parking lots (three within the “megablock” and one east of NE 8th Avenue) that could be redeveloped. Suggested enhancements:

1. A newly renovated, expanded and modernized City Hall/Administrative Building in order to consolidate government uses in one building. This would allow removal of the Zoning, Parks, Code and CPD Buildings in order consolidate all the Administrative staff into one building and create additional park/green space along NE 8th Avenue for special events.

2. Police Department – No Change

3. Retail Space

4. Hotel

5. Parking garage with first floor retail east of NE 8th Avenue (across from City Hall).

6. MOCA expansion of 24,000 square feet as contemplated.

7. Develop new space for a Cultural Arts, Film and Education Destination:
   - Additional Park/Open Space for special outdoor events
   - A multi-purpose Performing Arts Center of approximately 800-900 seats
   - Historical Museum space of approximately 2,000 square feet to house and display the Historic Society’s Collection and future donated collections.

6. Public + Private Development
The City has re-written its Comprehensive Plan and Land Development Regulations in anticipation of the forthcoming Downtown North Miami renaissance. The stated goal is to allow for higher densities and intensities in the Downtown area (C-3 District) and specifically along the major transportation corridors. The following graphic depictions are intended to be general guides for new development.

Private Development Opportunities:

1. NE 126th Street between NE 8th and 9th Avenues (New Residential and Parking – South Side).
2. NE 125th Street between NE 8th and 9th Avenues (New Commercial and/or Residential and Parking – North Side).
3. NE 125th Street between NE 8th and 9th Avenues (New Commercial, Residential and Parking – South Side).
4. NE 124th Street between NE 8th and 9th Avenues (New Residential and Retail - North Side).
5. Five Points residential.
6. Jewish Community Services Retrofit.
7. Side Street Cafes are envisioned as a strategy to bring more restaurants into downtown and improve street life. The City would relinquish approximately two parking spaces adjacent to strategic development locations in order to provide an area that would accommodate outdoor seating from traffic lanes, wider sidewalks, and new landscape buffering. Side Street cafes could be located in various identified locations throughout the Downtown Core. Investment would come from both public and private sources.

7. Chapter Summary
North Miami Downtown Concept Plan 2014 Summary

In 2007-2009, the City took bold steps to allow for higher densities and intensities in re-developing areas by re-writing both the City’s Comprehensive Plan and Land Development Regulations. Once this process is complete and this Plan is adopted by City Council it is envisioned to act as a general guide for new public and private development within Downtown North Miami.

The hope and vision for the City is to create a thriving downtown community in which to live, work, study and play. The addition of several thousand new residents also brings the need for a variety of business, cultural, recreational and educational uses with adequate parking. A thriving downtown requires of a mix of housing types for a mixed-income, multi-generational population. These factors bring to Downtown North Miami diversity and an energy critical for a successful community.
